**Web:** www.RootsBlower.com

**ROOTS® horizontally-split multi-stage compressor provides efficient and reliable operation while offering easy access for maintenance.**

A choice of impeller materials along with a variety of sealing arrangements allows this design to apply to air or process gas applications. The multi-stage design offers low tip speeds extending blower life and offering low total cost of ownership.

- Choice of several impeller materials
- Polytropic heads to 90,000 ft.
- Flows from 9,000 to 125,000 cfm (15291 to 212376 m³/hr)
- API capability
- ROOTS® Control packages
