**ROOTS® has provided blower and compressor maintenance and repair services for over 150 years. Customers rely on our expertise in the repair and maintenance of blowers and centrifugal compressors, vacuum pumps, gas pumps to return equipment to peak efficiency and full service life. Regardless of harsh conditions and length of service your unit has endured, we can restore it to its original factory specifications.**

Because a quick return to operations is important to our customers, we offer an exchange program covering a wide range of ROOTS® rotary equipment and maintain an inventory of genuine ROOTS blowers and compressor parts.

Each serviced blower is mechanically tested to ensure compliance to rated specifications. Our maintenance and repair services are backed with a one-year warranty on new ROOTS blowers and compressors parts.
